QCA CODE COMPLIANCE STATEMENT

The Board of Directors’ (the ‘Board’) continues to support achieving high standards of corporate governance and we remain fully compliant with the principles of the Quoted Company Alliance’s Corporate Governance Code (the ‘QCA Code’). 

accesso’s adherence to high standards of ethics, values and corporate social responsibility are principles which underpin our governance procedures and the strategic and management decisions that we make. Our governance model evolves to support the business and the QCA Code continues to provide a flexible, yet rigorous approach to support this. The Board is continuing to review appropriate governance around ESG matters and has engaged with professional advisors to assist with the formalisation of relevant Board policies.

We also recognise that we have an impact on the world in which we live, our employees, and the people we interact with. We strive to deliver strong results to our investors through sustainable business practices across environmental, social and governance pillars.

The Company is subject to the UK City Code on Takeovers and Mergers.

This page provides access to the managing and financial information required by Rule 26 of the AIM rules for companies.

Bill Russell
Non-Executive Chairman
4 July 2023

The sections below set out the ways in which the Company applies the ten principles of the QCA Code.

1. **Establish a strategy and business model which promote long-term value for shareholders**

   acesso’s purpose is a simple one. It is to partner with the operators of leisure attractions around the world and to help them deploy technology solutions to engage with their guests to deliver better guest experiences. We provide solutions that empower our clients to create connected guest experiences and drive their businesses forward.

   Our long-term partnership with clients is the bedrock of our business. We look to expand the breadth of the enterprise software stack increasing the value we deliver, and share in, as well as establishing a vital position in their service delivery. Our strategy is to both drive efficiencies to improve margins and, through innovation, to augment the coverage of the guest journey.
Looking ahead, we find ourselves in an enviable situation. Management are of the belief that no other vendor in the attractions and leisure market has anything like the scale or breadth of competency that we have. Our plan is to continue market-leading innovation and continue to increase our share of this broad global market opportunity.

The strategy and business operations of the Group are set out on pages 3 to 27 of the 2022 Annual report and financial statements.

The Group’s strategy is developed by the senior management team and approved by the Board. The management team is responsible for implementing the strategy and managing the business at an operational level.

2. **Seek to understand and meet shareholder needs and expectations**

The Company and Board recognises the importance of developing and maintaining good relationships with all the various categories of shareholders and devote significant effort and resource in this respect.

There have been regular dialogues with shareholders during the year such as holding briefings with analysts and other investors, including staff shareholders. The Company uses the annual general meeting as an opportunity to engage with its shareholders.

The Board have an on-going dialogue with shareholders through formal communication of financial results on a yearly and half yearly basis and also provide periodic market updates and the required press releases to ensure compliance with the AIM rules. The Board engage with substantial shareholders to ensure that the strategic direction of the business is aligned with group objectives.

Enquiries from individual shareholders on matters relating to the business of the Company are welcomed. Shareholders and other interested parties can subscribe to receive notification of news updates and other documents from the Company via email. In addition, the executive directors meet with major shareholders to discuss the progress of the Company and provide periodic feedback to the Board following meetings with shareholders.

This programme of investor relations is run by *accesso* and shareholders can contact the Company directly using the following email address:  
[investor.relations@accesso.com](mailto:investor.relations@accesso.com)

The non-executive directors are all willing and available to engage with shareholders, should they have a concern that is not resolved through the normal channels.
3. **Take into account wider stakeholder and social responsibilities and their implications for long-term success**

The Group is aware of its corporate social responsibilities and the need to maintain effective working relationships across a range of stakeholder groups which includes the Group’s employees, customers, partners, suppliers and regulatory authorities. There is a regular engagement with each of these stakeholder groups.

**Clients, Partners and Suppliers**

Accesso’s customers are key to the long-term success of our business. We seek to grow and maintain our customer base. Our reputation needs to be preserved to protect our position as the leading technology provider of choice for tomorrow’s attractions, venues and institutions to help us achieve our growth ambitions. They are key business partners and we set out our relationship in the terms of business or service level agreements. We maintain oversight of these arrangements as well as making sure our customers receive an appropriate level of disclosure.

We listen to our customers and invest heavily in research and development because our industries demand it, our clients benefit from it and it makes a positive impact on the guest experience. Our innovative technology solutions allow venues to increase the volume and range of on-site spending and to drive increased transaction-based revenue through cutting edge ticketing, point-of-sale, virtual queuing, distribution and experience management software.

Many of our team members come from backgrounds working within the attractions and cultural industry. In this way, we are experienced operators who run a technology company serving attractions operators, versus a technology company that happens to serve the market. Our staff understand the day-to-day operations of managing complex venues and the challenges this creates, and together we strive to provide our clients and their guests with technology that empowers them to do more and enjoy more. From our agile development team to our dedicated client service specialists, every team member knows that their passion, integrity, commitment, teamwork and innovation are what drive our success.

The Prism band is the sole piece of hardware we manufacture. Our manufacturing partner was carefully selected to ensure it met our own and our customers standards. We act as a reseller for any other hardware used in our business partnering with socially and environmentally responsible suppliers. In any manufacturing process there is ultimately scrap, and we dispose of this responsibly using an ISO certified third party.

**Employees**

The Group’s policy is to consult and engage with employees, by way of meetings, surveys and through personal contact by directors and other senior executives, on
matters likely to affect employees' interests. Information on matters of concern to employees is given in meetings, handouts, letters and reports, which seek to achieve a common awareness on the part of all employees on the financial and economic factors affecting the Group's performance.

Engaged, enabled, empowered employees who contribute to the best of their potential are fundamental to the long-term success of the business. We employ and develop high calibre staff. We maintain oversight of their performance through an annual performance and development review process. We seek to offer appropriate levels of remuneration which we benchmark using market surveys.

We are always looking for ways to improve the strength and diversity of our team, ensuring that we recruit and retain the very best talent. During 2022 we continued this effort, onboarding 162 new hires.

While recruitment is an important part of the puzzle, retention is key. We achieved our highest ever employee engagement score during 2022, launched our Wellness Programme and our Diversity, Equity, and Inclusion Council. All of this has combined to ensure our people feel accesso supports, trusts, and champions them. With a staff churn rate of just 15%, we are proud of the investments we have made in our team and the strong culture that sets us apart as a business.

Our expected standards of behaviour are set out in our Code of Business which all staff are expected to adhere to.

Diversity, Equity & Inclusion ('DEI') remains a key focus area as we work to implement a more formalised strategy including updated metrics and targets. We have expanded our DEI metrics to include wider gender and racial/ethnic group representation metrics across the business. On 31 December 2022, our minority headcount was 31% and female headcount was 35%. We plan to further expand these metrics in future annual reporting.

We have continued to partner with the National Diversity Council to assess our current diversity landscape and assist with the building of our future efforts. Following the launch of our DEI Strategic Council in January 2022, a formalised strategy was developed and communicated to all employees. Notable Council achievements during 2022 include:

- Optimised our closed captioning and translation capabilities to create a more inclusive environment during meetings.
- Created a DEI communication space for all employees with the purpose of educating, sharing different cultures, holidays and traditions.
- Provided more inclusive language of preferred pronouns in our application tracking system and email signatures.
In 2023, the Council will be implementing a diversity specific recruiting platform and looking to partner with organisations that will ensure increased exposure to a more diverse candidate pool.

accesso’s diversity and inclusion policy, which encompasses the Board, is based on a commitment to creating an environment where diversity is valued and respected. We believe that business success is a direct result of the experience and quality of its people. Inherent within this approach is an acceptance and embracing of diversity in all its forms and an endorsement that the entire workforce, including the Board, be representative of the communities in which the Group operates. Key aims of the policy are to ensure equality, diversity and inclusion in the workplace and to promote a culture where everyone is treated with respect and dignity.

The impact of the company’s operations on the community and environment
As a tech Company with a limited office footprint, our largest variable is corporate travel. Since COVID-19 brought business travel, and especially air travel, to a halt, our business travel emissions were relatively low in 2021. Now, post-COVID, travel networks have reopened, and our business travel has more than doubled in 2022. Although site visits are in the nature of our business and business travel can therefore not be avoided altogether, we have initiatives to reduce the frequency of these. Itineraries are approved based on necessity and we use video conferencing software where possible. We intend to further review our business travel policy as well as explore a carbon offset strategy to offset emissions that can be reduced no further.

accesso is a responsible member of its community as it reflects our culture and matters to our staff and local community. accesso has a strong culture of supporting staff in both individual and group volunteering and fundraising initiatives. These now encompass encouraging staff to volunteer at local community projects and participate in local events; and providing corporate sponsorship of charitable activities.

In 2022, our Company won the Tech Cares Award from Trust Radius, which is granted on annual basis to a select group of businesses for their focus on Corporate Social Responsibility.

Our community outreach programme includes:

Volunteer Time Off
All employees receive one paid day per year to spend volunteering with a charity of their choice. We partner with Technovation, a global tech education non-profit whose mission is to empower children to become more confident leaders and problem solvers in their communities. Our employees serve as judges to provide feedback to teams of girls on mobile apps they build from scratch. https://technovationchallenge.org
Charitable Giving
Both directly and in partnership with our clients we contribute to various causes including domestic violence, childhood hunger, cancer research and natural disasters.

Donation Drives
Local offices regularly participate in company-sponsored activities such as Angel Trees, the purchasing of Christmas gifts for local foster children. [https://saangeltree.org](https://saangeltree.org)

Twyford Together
Twyford employees volunteer monthly, sorting & packing plastic waste which is sold to Terracycle to raise money for six Twyford based charities. [www.twyfordtogether.org](http://www.twyfordtogether.org)

A significant part of our business is focused on digitizing the ticketing process and this is expanded to include other key event items such as maps, guides and receipts. In queuing we have redesigned our hardware to incorporate a replaceable battery significantly increasing product life while decreasing waste. We also continue to expand the use of our que smart technology eliminating the need for any hardware use.

We recognise that waste does occur and we employ a variety of office recycling programmes such as returning ink cartridges; recycling bins at all desks and shredding boxes throughout offices; eliminating single use plastics in our offices through washing dishes and not using disposables; soda machine in lieu of cans/bottles; water filling stations with reusable cups; and bulk snacks to reduce packaging. We ensure energy preservation in our offices with the use of automatic lights, energy saving bulbs and auto air conditioning shut-off after hours.

Environmentally, we are committed to and actively striving for a sustainable future by engaging in decarbonisation and have established our first Climate Policy. Recognising the importance of climate change as a global issue, in 2022 we have accelerated efforts towards understanding our role in creating a sustainable future. The development of our Climate Policy has put us on a trajectory to carbon neutrality, broader environmental sustainability (e.g., by beginning to understand our wider waste footprint) and further improvement of our environmental governance. In 2022, we have started to explore disclosure frameworks, expanded climate metrics, environmental risk management and decarbonisation strategy. We will continue this work in 2023. Further details are set out on pages 23 to 25 of the 2022 Annual report and financial statements.

4. **Embed effective risk management, considering both opportunities and threats, throughout the organization**

The Board ensures maintenance of a sound system of internal control and risk management and undertakes a systematic review of the key risks and uncertainties
which the Group faces. The Board seeks to embed risk management and to facilitate
the implementation of risk management measures through the Group’s business.

The Audit Committee keeps under review the effectiveness of the Group’s system of
internal control on behalf of the Board. As part of this role, it reviews the Group’s
controls and procedures for the evaluation, monitoring and management of risks,
advises the Board on the Group’s risk strategy.

The Board is satisfied that the Group’s risk management and internal controls systems
are adequate and at this stage the Board does not consider it appropriate to establish
an internal audit function.

The Board has identified the principal risks and uncertainties which it believes may
impact the Group and its operations, as well as a number of key performance indicators
with which to measure the progress of the Group. A summary of these principal risks
and uncertainties facing the Group, as well as the key performance indicators and
alternative performance measures are set out on pages 13 and 18 to 20 of the 2022
Annual report and financial statements. Whilst not required for AIM listed companies,
we formalized a risk register in 2022 as an additional layer of risk management.

The Group maintains a comprehensive programme of insurance, including insurance
against a material loss or claim against the Group and directors’ and officer’s indemnity
insurance.

5. **Maintain the Board as a well-functioning balanced team led by the chair**

The Board of directors comprises two executive directors, the non-executive Chairman
and two non-executive directors.

The Board is satisfied that the two non-executive directors and the non-executive
chairman have no relationships or other matters which could affect their respective
judgment in carrying out their duties and, accordingly, they are considered by the Board
to be independent of management.

All of the directors are subject to election by shareholders at their first annual general
meeting after their appointment to the Board and seek re-election at each annual
general meeting thereafter.

Further details on each of the directors are available on the Investors page of the
website. As can be seen from their profiles each of the directors brings a mixture of
skills, experience and knowledge, the balance of which enables the Board to discharge
its duties effectively.
The Board is responsible for the overall leadership of the Company and setting the Company’s vision, purpose, values and standards. It approves the Group’s strategic aims and objectives and the annual operating and capital expenditure budgets and ensures maintenance of a sound system of internal control and risk management. The Board usually meets formally at least eight times a year, and at such other times as required. There are regular informal discussions between the executive and non-executive directors. The time required of directors may fluctuate depending on the demands of the business and other events. They are expected to allocate sufficient time to the Company to perform their duties effectively and make themselves available for all regular and ad hoc meetings.

Directors are provided with clear and accurate information relating to matters to be considered at the Board and Committee meetings, including proposal papers, management reports, information on risk management, progress on key initiatives and routine matters such as financial report and statements on current trading. The information is provided in a timely manner to ensure an appropriate level of review by each of the Directors ahead of the meetings.

The Board is supported by an Audit Committee and Remuneration Committee. The schedule of matters reserved for the Board and terms of reference for the Committees are available via the links below:

- [Matters Reserved for the Board](#)
- [Audit Committee Terms of Reference](#)
- [Remuneration Committee Terms of Reference](#)

6. **Ensure that between them the Directors have the necessary up-to-date experience, skills and capabilities**

   The Board regularly reviews the composition of the Board to ensure that it has the necessary breadth and depth of skills to support the ongoing development of the Group. Having conducted a skills matrix assessment as part of the 2021 evaluation of Board performance, the Board considers that all of the non-executive Directors have the requisite skills and considerable experience within the technology arena to bring objectivity, knowledge and expertise to its activities.

   The biographies of the directors are set out in the Board of Directors section of the Investors page on the website. The directors receive updates from the company secretary and other various external advisers on legal requirements and regulations, remuneration matters and corporate governance best practice.

   All directors have access to the company secretary and are permitted to obtain
independent professional advice at the Company’s expense where they consider it necessary for them to effectively discharge their duties.

The Company recognises the importance of diversity, including gender, and the Board continues to look to build further diversity into leadership and across the business recognising the value of building and developing a diverse workforce at all levels within the Group. We are committed to increasing diversity across our operations and to supporting the development and promotion of talented individuals, regardless of gender, ethnic background or otherwise. Further details are available at www.accesso.com/about/diversity-inclusion

7. **Evaluate board performance based on clear and relevant objectives, seeking continuous improvement**

The performance and effectiveness of the Board, its Committees and of individual Directors is reviewed regularly. During late 2021 the Board undertook a formal review which was conducted internally by the company secretary and consisted of written responses to a questionnaire. Views and recommendations were consolidated into a report which was presented to the Board for review and discussion. Items requiring attention were considered and action points created to ensure that any areas needing improvement were prioritised and addressed. The recommendations from the 2021 Board Evaluation, were advanced during 2022. The evaluation exercise has been used to improve the effectiveness of the Board and to introduce improvements to Board processes on an on-going basis. The Board agreed that it was appropriate to hold the next Board Evaluation at the end of 2022 and into 2023.

On an on-going basis Directors are encouraged to raise any issues or concerns with the Chairman as soon as appropriate, as the Chairman will do in the event there are any matters causing the Company concern.

In addition, the performance of all continuing Directors is considered before they are proposed for re-election at each AGM.

It is considered that the composition and size of the Board does not warrant the appointment of a Nominations Committee and appointments are dealt with by the Board as a whole. The need to appoint such a committee is subject to review by the Board. Succession planning is a continuous strategic process, and the Board continues to focus on both long-term and short-term succession both for board and senior management succession.

8. **Promote a corporate culture that is based on ethical values and behaviours**
accesso adheres to a high standard of ethics, values and corporate social responsibility and these principles underpin our governance procedures and the strategic and management decisions that we make.

accesso’s ‘Global Culture Guide’ issued to all employees is a document at the heart of the business and one that is acknowledged by all employees setting out the Group's code regarding values, business ethics, diversity and equal opportunity. Employees are required to complete mandatory training on an annual basis covering a range of matters, which in recent months included unconscious bias and inclusion training; preventing workplace harassment; privacy and data protection; and information security awareness. accesso’s Whistleblowing Policy encourages and provides means for employees to anonymously report wrongdoing, which extends to modern slavery, human rights violations and trafficking, without fear of redress or reprisal.

accesso continues to invest in its people, creating a positive working environment that attracts and retains the best talent in our industry. The strength of our culture and the quality of our people are the driving force behind our success. We are constantly developing new ways to support our employees through new benefits and ways of working to improve work/life balance. Employees can now choose to work fully remotely, fully in the office or a hybrid model of both.

The senior management team regularly monitors the Group’s cultural environment and seeks to address any concerns that may arise, escalating these to Board for consideration as necessary.

9. **Maintain governance structures and processes that are fit for purpose and support good decision-making by the Board**

The executive directors have day to day responsibility for the operational management of the Groups’ activities. The non-executive directors are responsible for bringing independent and objective judgement to Board decisions.

The chairman is responsible for overseeing the running of the Board, ensuring that no individual or group dominates the Board’s decision making and ensuring the non-executive directors are properly briefed on matters. The chief executive officer has responsibility for implementing the strategy of the Board, alongside the chairman, and managing the day-to-day activity of the Group. The company secretary is responsible for ensuring that Board procedures are followed, and applicable rules and regulations are complied with.

Detailed proposal papers, management reports, progress on key initiatives and routine matters such as financial reports and a statement on current trading are produced in
advance of meetings to enable proper consideration and debate of matters by the Board in its meetings.

Major strategic initiatives involving significant cost or perceived risk are only undertaken following their full evaluation by the Board. Matters of an operational nature are delegated to executive management. The Board’s meetings are properly minuted.

Whilst not required for AIM listed companies, we formalized a risk register in 2022 as an additional layer of risk management.

The Board has established an Audit Committee and a Remuneration Committee with formally delegated duties and responsibilities. The matters reserved for the Board and the terms of reference for both Committees are available via the links below:

- [Matters Reserved for the Board](#)
- [Audit Committee Terms of Reference](#)
- [Remuneration Committee Terms of Reference](#)

**Remuneration Committee**
The Remuneration Committee consists of independent non-executive Directors Andy Malpass and Jody Madden, who chairs the committee. The Committee’s primary role is to determine, and agree with the Board, the remuneration policy for the Executive Directors and senior management as well as to oversee the remuneration of the organisation as a whole, ensuring alignment of objective and rewards. Within the terms of the policy, the Committee also approves performance-related and discretionary awards to Executive Directors. The Remuneration Committee meets on an 'as required' basis.

**Audit Committee**
The Audit Committee consists of independent non-executive Directors, Jody Madden and Andy Malpass, who chairs the committee. The committee is responsible for monitoring and reviewing the financial reporting of the Group from information provided by the management and the auditor. As part of this it reviews both the financial information and the narrative reporting within the externally published announcements and company reports. It also considers the objectivity, independence and cost effectiveness of the external auditor. The committee keeps under review the effectiveness of the Group’s system of internal control on behalf of the Board. As part of this role, it reviews the Group’s controls and procedures for the evaluation, monitoring and management of risks, advises the Board on the Group’s risk strategy. The executive directors are closely involved with the management and review of business operations.
The committee considers the objectivity, independence and cost effectiveness of the external auditor, taking into account the views of management. Non-audit/tax advisory services are benchmarked by management to ensure value for money, auditor objectivity and independence of advice.

The Audit Committee meets at least twice a year to review the Annual report and financial statements and to consider any other associated matters.

Page 30 and pages 33 to 41 of the 2022 Annual report and financial statements contain further information on the work of the Board’s committees.

10. Communicate how the Company is governed and is performing by maintaining a dialogue with shareholders and other relevant stakeholders

As detailed under QCA Code Principle 2 above, the Board is committed to communicating regularly, effectively, clearly and accurately with the Company’s shareholders and other stakeholders to keep them appraised of the Company’s progress. The Regulatory Information section of this website, on the Investor page is kept up-to-date and contains copies of regulatory announcements, the Company’s financial results, and investor presentations and circulars. Press releases can be found on the News page of this website.

At the annual general meeting held on 16 May 2023 all resolutions were passed. The announcement of the results was advised to the market via the RNS, and the announcement can be accessed via the Regulatory Announcements section of this website below.
